

Statistical Business Analysis Report

This report presents descriptive statistics, hypothesis testing, confidence intervals, correlation analysis, and regression analysis performed on the business dataset.

Metric	Mean	Std	Min	Max
Quantity	4.78	2.59	1.00	9.00
Price	25808.51	13917.63	1308.00	49930.00
Total_Sales	123650.48	100161.09	6540.00	373932.00

T-Test between Quantity and Price

T-statistic: -18.5403

P-value: 0.0000

ANOVA Test among ['Quantity', 'Price', 'Total_Sales']

F-statistic: 124.8156

P-value: 0.0000

Confidence Intervals

Quantity: Mean=4.78, 95% CI=(4.27, 5.29)

Price: Mean=25808.51, 95% CI=(23046.95, 28570.07)

Total_Sales: Mean=123650.48, 95% CI=(103776.35, 143524.61)

Regression Analysis

Regression Analysis:

Independent Variable: Quantity

Dependent Variable: Price

R² Score: 0.0001

Coefficient: 43.0970

Intercept: 25602.5062
